

Neta Scientific's Ribbon Cutting Ceremony

On June 7, 2024, we held our Ribbon Cutting Ceremony officially marking the next step in the Neta Scientific journey. Thank you to everyone for joining us to celebrate this day.

This new building will serve us well in the coming years, allowing for some expansion as we continue to grow.

The ceremony was followed by a light reception in the warehouse and facility tours were held for our guests.

If you missed it and would like to watch, please check out our YouTube Channel or Facebook.

Here are some of the photos taken of this special day.
